- Section with always captial S
- RMM fix reference

2 Literature review

- TLB reach needs defining
- PTE acronym
- Citation (HP Tunable page table)
- CHERI standardise bullet points into a paragraph.

3 FAT address range table

- Sentence 1 remove "talks about"
- "Lesser pressure" FAT leverages to reduce pressure on the TLB
- Fix "as show" to "as shown"
- Remove "CHERI CC [4] as referred in section 3.2." to "CHERI CC [4] (section 3.2)"
- Explain Cheri CC in the literature review
- Move Cheri CC reference to it has been observed
- "With FAT rather than using fixed size TLB entries page sizes" Rephrase this sentence.
- "We use CHERI CC bounds to 344 be dynamic in size to be defined based on the size provided when 345 calling malloc. Offering a more flexible alternative than fixed-size 346 TLB entries." Make this into 1 sentence.
- "To build up based on Section 3.1 and 3.2." Remove this setence
- "As demonstrated with the allocator implementation in section 4" Remove this sentence
- "reprecated" to "replicated"

4 Malloc implementation

- "Specifically, the start and end addresses encoded in FAT to provide the necessary information to identify the exact memory block to be deallocated." Rewrite this sentence

5 Evaluation

- 2nd para move to benchmarks section
- "The results (section 5.3)... (comment out)
- "The experiment setup" comment out
- Replace "lesser" with fewer
- "This observation highlights the importance" Comment out

6 Conclusion

- "This approach has helped reduce" -> "This approach reduces"
- "Remove comprehensive"
